Representation of the Town of Jupiter in a 52-count Complaint in federal court by developer involving constitutional challenges of takings, equal protection and due process seeking damages, a consistency action, and zoning claims of arbitrary and capriciousness. Defense of Municipality in Landowner Taking Claim

Representation of the Town of Jupiter in state court against a landowner's claim of a temporary taking of a 12-acre spoil island in the Jupiter River due to the Town's refusal to timely issue a clearing permit for the island. Planning & Zoning | State Circuit Court Cases and Administrative Proceedings

Municipality Prevailed in Adult Entertainment Business Closure

Successful representation of the Village of North Palm Beach in a two-count complaint seeking injunctive and declaratory relief prohibiting the operation of an adult entertainment business. A counterclaim was filed

seeking a declaratory judgment declaring the Village's adult entertainment regulation unconstitutional. The trial court held that reasonable avenues for communication for adult entertainment were available under the Village' regulations. The court entered a Final Judgment upholding the constitutionality of the Village's regulations and requiring the business to immediately cease operation as an adult dancing business within the Village. The Fourth District Court of Appeal affirmed the trial court's Final Judgment.

Municipality Prevails in Zoning Challenge

Representation of Palm Beach County following a zoning approval for a mini-warehouse facility, after which an adjacent property owner challenged the approval as being inconsistent with the County's Comprehensive Plan. The County prevailed at trial and on appeal to the Fourth District Court of Appeal.

County Prevails in District Court Appeal over Zoning Challenge

Representation of Palm Beach County in property owner appeal in the Circuit Court following denial of rezoning from residential to commercial. The Court reversed the County Commission's denial of the rezoning. The County appealed and the Fourth District Court of Appeal reversed the Circuit Court. An appeal of the Fourth District Court of Appeal's opinion was taken to the Florida Supreme Court and the County prevailed.

District Court Affirms Town Council Authority to Rehear Appeal

Representation of a Town Council in a matter involving a resident's permitting request. The Town Council considered a resident's appeal of a determination by the Town's Community Development Director that the resident's construction of a boat canopy was a major amendment to the Planned Unit Development which included a marina. The Town Council initially disagreed with the Director's decision, which meant that a building permit had to be issued for construction of the boat canopy. Upon being presented with further information, the Council elected to conduct a rehearing. Before a date for the rehearing was set, and a Final Order was entered by the Council, the property owner filed suit alleging in his Writ of Prohibition that the Town was prohibited from reconsidering its decision. The Trial Court determined the Council had the authority to rehear the appeal and the Fourth District Court of Appeal affirmed.
